## Company Formations

We would like to explain the difference between our Company Formation Service and that of the majority of other Formation Agents.

Most Company Formation Agents incorporate Limited Companies manually, which means you often CANNOT TRADE for up to fourteen days.

Other companies incorporate electronically, but then send you forms 288a and 287 so that you can register the Directors, Secretary and Registered Office with Companies House. These companies may tell you that they will supply the Company Registration Number within 24 hours, - until the 288a's and 287 are updated by Companies House you cannot open a bank account and you are not recognized as the Director or Company Secretary. This will normally take a further seven days.

All of our companies are formed electronically within 24 hours and all details of the Directors, Company Secretary and Registered Office are lodged immediately, which means there is no paperwork for you to complete, and you can trade immediately.

All this for just £99.00!!

### About Limited Companies Status

A Company is seen as having greater prestige than trading as a Sole Trader or Partnership, and will undoubtedly affect the behaviour of some clients, suppliers etc. Tax and National Insurance Remuneration can be calculated to substantially reduce your National Insurance and Tax liabilities.

Expenses Expenses incurred which are wholly and exclusively for the business can be offset against the Company's Liabilities.

Business Name As a Limited Company your name is protected by LAW and this will prevent anyone else trading with it. Company Formation

- Limited Company Formation £99.00 (formed within 24 hours)

- Limited Company Formation + Company Seal £139.00 NB: All of our Companies are formed within 24 hours with Directors, Company Secretary and Registered Office actioned on-line. This means you have no paperwork to complete for your formation and your Company is ready to trade within 24 hours.
